SUMMARY

Front-end developer with 5+ years of freelance experience and 70+ projects delivered for clients across the US and Europe. I build **React / Next.js** and **Vue / Nuxt** applications end to end — from the Figma file to a tested, live deploy on Vercel or Cloudflare — with clean, typed code that is easy to hand off. I work daily with AI agents (Claude Code, Codex, Cursor) to move faster, while owning the architecture and reviewing every line.

EXPERIENCE

Front-end Developer (Freelance) — Upwork May 2022 – Present

- Delivered 70+ projects for clients in the US and Europe: product front-ends, dashboards, crypto exchanges, job boards and marketing sites, from MVPs on a deadline to long-running platforms.
- **Attachd** — built an attachment-style test with a personal result for each partner and a couples report comparing both. Next.js, React, TypeScript, Tailwind CSS, Vercel.
- **WeCash** — built the front-end of a rewards platform where users earn payouts for playing games, trying apps and completing surveys. Nuxt 3, Vue 3, Pinia, SCSS.
- **Kraudcloud** — built a CRM dashboard for managed Kubernetes, where teams provision, monitor and manage clusters in one place. Nuxt 3, Vue 3, TypeScript, Pinia.
- **Fuchsjobs** — built a German job board where companies post vacancies and candidates search, filter and apply in a few steps. Vue 3, Tailwind CSS, i18n.
- **WinEXa, Eunobit** — built multi-language crypto exchange flows that take users from a live quote to a completed swap. Nuxt, Vue, SCSS, i18n.

Web Developer (Freelance) — Weblancer.net Nov 2021 – Apr 2022

- Built and updated client websites from design mockups, integrated REST APIs, and handled hosting and deployment.

SKILLS

Frameworks	React, Next.js, Vue 3, Nuxt 3
Languages	TypeScript, JavaScript, HTML5, CSS3, Sass/SCSS
State & data	Zustand, TanStack Query, Pinia, REST APIs, i18n
